SKILLS

- Web Development: HTML, CSS, React.js, Bootstrap
- UI/UX Tools: Figma, Webflow

- Strengths:
    - Team collaboration
    - critical thinking
    - adaptability

PROFESSIONAL EXPERIENCE

Text Utility Tool

- A website with text transformation features (uppercase/lowercase), word removal, and advanced text operations. Designed for simplicity and functionality.

Dynamic News Website

- Built using React.js and the News API.
- Features:
    - Category browsing without reloads.
    - News cards with source badges, time, and author info.
    - Dynamic Next/Previous buttons with page detection.

BeyondChats – Chatbot UI/UX Design

- Designed the UI/UX for a chatbot company implementing the following workflow:
- User Registration: User enters name, email, and password or logs in with Google. Email verification included.
- Setup Organization: User inputs company details; a meta-description auto-fetch feature was included for convenience.
- Chatbot Training: UI shows the status of webpage scraping and data chunks with dummy data for visualization.
- Chatbot Integration & Testing:
- "Test chatbot" and "Integrate on your website" options with step-by-step integration instructions.
- Feedback, testing, and success screens included, with confetti UI for successful integration.
